Thank you for your request concerning homicide reviews.

Your request has been considered and processed in accordance with the requirements of the Freedom of Information (FOI) Act 2000.

1. **How many reviews have your trust, or its predecessor organisation, carried out in the past ten years into patients who have killed other people whilst in your care?**

   In the past ten years there have been eleven homicide reviews.

2. **How many of those reviews are still ongoing**

   Two are still ongoing

3. **If a report/review was made publicly available on any of the cases then please supply me with a copy.**

   The Trust undertakes internal investigations for cases meeting serious incident reporting criteria in accordance with the National Serious Incident Framework, March 2015. The homicide review process is lead and managed by NHS England and they are responsible for publication of the reports via their website.

4. **If a report/review was produced that as yet has not been made public could you please provide me with a copy with redactions if any are considered necessary under the terms of the Freedom of Information Act. Please ensure that any redactions still allow me to establish the circumstances of the case, i.e. how long the patient had been in your care, the type of care being received, the relationship of the patient to the victim, the nature of the killing, when and where the death took place, whether there were any recommendations made about the nature of the care given to the patient in the light of the killing.**

   Of the 9 concluded internal investigations, 8 were subject to independent investigations via NHS England. The remaining case is currently with NHS England pending their decision.
