Thank you for your request concerning Quality Assurance Software Systems.

Your request has been considered and processed in accordance with the requirements of the Freedom of Information (FOI) Act 2000.

I am doing some research regarding quality assurance software systems, used by nursing teams for auditing and accreditation in your Trust. Examples of the audits would be - safeguarding audits, falls audits, weekly audits, and ward accreditation. I would be grateful if you could, under the Freedom of Information Legislation, provide the following information relating to the mentioned software:

1. What is the current supplier name?
2. What are the contract dates (start and termination date)?
3. Which procurement route/framework/DPS was used to purchase the system?
4. How many staff use the system?
5. How much was invested in the system?

As a Trust we do not use auditing software to conduct our audits as data is collected manually.

Should you require further clarification, please do not hesitate to contact me.

Please find enclosed an information sheet regarding copyright protection and the Trust's complaints procedure in the event that you are not satisfied with the response.

Yours sincerely

Sue Smith
